## REF CLASSROOM: FOCAL LUNG LESIONS, INFECTIONS, PULMONARY HYPERTENSION, MEDIASTINUM, PLEURA

DURATION - 23 FEB TO 01 JUN - 15 WEEKS

### About the Course:

**REF Classroom: Focal Lung Lesions, Infections, Pulmonary Hypertension, Mediastinum, Pleura**

1. This curriculum will be taught using Google Classroom. The Introductory Video (link: [https://youtu.be/j3itdK\\_ViBY](https://youtu.be/j3itdK_ViBY)) has an overview of the curriculum. It is meant for all physicians interested in interpreting CT scans of focal lung lesions, pulmonary hypertension, mediastinum and pleura, from residents to consultants.
2. Each week, a new YouTube video on the subject of that week will be uploaded on a Sunday.
3. Each video will be accompanied by classwork to be done, in the form of questions and quizzes to be answered. The answers will not be graded but each participant must complete the questions.
4. Any questions posed by participants will be answered asynchronously within 2-3 days.
5. The last quiz on Week 14 must be answered fully over 1 week and the participant must get 33% correct.
6. After completing the course work and the final assessment, a certificate of completion will be issued.
7. If less than 80% of the assignments have been completed, then no certificate will be issued.

### Registration

**From 14 Feb till 15 March midnight. Limited Seats available**

1. The price is **Rs. 1499** and subscriptions will be open till the end of Week 4, i.e the midnight of **15th Mar 2025**, or when the number of participants reaches **240**, whichever is earlier, after which the subscriptions will be closed.
2. After your subscription has been received, your email ID will be added to the participant list in Google Classroom, following which you will receive notifications each time a new assignment is put up.
